Correct: \_\_\_\_\_

- 9) Shayna paid \$7.10 for a pizza. She now has \$6.79. With how much money did she start?
- 10) Mofor is cooking muffins. The recipe calls for 3 cups of flour. He accidentally put in 8 cups. How many extra cups did he put in?
- 11) Krystal won 45 super bouncy balls playing hoops at her school's game night. Later, she gave one to each of her friends. She only has 15 remaining. How many did she give away?
- 12) Last week Lisa ran 5 miles more than Emily. Lisa ran 24 miles. How many miles did Emily run?
- 13) Bill paid \$4 for a pizza. He now has \$17. How much money did he have before buying the pizza?
- 14) Mary won 80 super bouncy balls playing hoops at the county fair. At school she gave one to every student in her math class. She only has 56 remaining. How many did she give away?
- 15) Heather wants to buy a CD that costs \$18.63. How much change does she receive if she gives the cashier \$100?
- 16) After paying \$5.67 for a pizza, Mike has \$31.84. With how much money did he start?

- 9) At a restaurant, Sumalee and her 9 friends decided to divide the bill evenly. If each person paid \$19 then what was the total bill?
- 10) Five workers are hired to seed a field by hand. Each is given a plot which is  $5 \times 12$  feet in size. What is the total area of the field?
- 11) Amanda spent \$56 on seven colored markers. How much did each marker cost?
- 12) Gabriella and her best friend found some money in a trash can. They split the money evenly, each getting \$8. How much money did they find?
- 13) At a restaurant, Emily and her 8 friends decided to divide the bill evenly. If each person paid \$15 then what was the total bill?
- 14) Jacob spent \$30 on five colored markers. How much did each marker cost?
- 15) Batteries cost \$5 / pack. How many packs did Sarawong buy if he spent \$20?
- 16) Joe and his best friend found some money under the couch. They split the money evenly, each getting \$13. How much money did they find?
